------------------------	---	---------------------

Website Hosting / Domain Registration (made simple)

There are many companies out there that are charging their clients a monthly hosting fee that can be upwards of 4-5 times more than it actually costs to register and host your website. We charge a simple flat fee of \$100 PER YEAR (\$8.34 / month) for the registration of your domain name (ie www.yoursite.com) and the hosting fee. We do not charge any additional, reoccurring monthly fees or have any maintenance contracts. We like to be honest and straight forward with our pricing and do not have any hidden costs. Please consider these values and honesty when choosing a web design partner.

About Strottner Designs

Strottner Designs is a full-service design agency based in San Antonio, TX. Our clients represent a diverse group of individuals, small businesses, start-ups, non-profits and organizations representing a wide range of industries. They seek professional, results-driven designs at affordable prices, all aimed at giving them a competitive marketing advantage. We always deliver as promised. We do not have hidden fees, create unrealistic expectations or over-complicate the design process -- alleviating any un-necessary confusion for our clients. In fact, we even provide our prices and packages directly on our website. If this type of philosophy, honesty and creative spirit sounds like what you are seeking, then contact us today so that we may discuss your impending project!
